### **SUMMARY**

Motivated Bachelor of Computer Applications student with hands-on experience in software engineering, cybersecurity, and cloud architecture. Skilled in programming, problem-solving, and delivering secure, scalable solutions. Passionate about professional growth and collaborative team environments.

### **SKILLS**

- Programming Languages: Python, Java, C++
- Software Engineering: Feature Development, Game Object Classes, Inventory System Design
- Cybersecurity: Identity and Access Management (IAM), Custom IAM Solutions, Phishing Prevention, Cloud Security
- Web & Databases: HTML, CSS, JavaScript, MySQL
- Cloud and Architecture: Scalable Hosting Design, Platform Integration
- Tools: Microsoft Excel, Word, PowerPoint

### **EDUCATION**

**LR College, Sahibabad** — Bachelor of Computer Applications (BCA) Expected Graduation: May 2025

# **CERTIFICATIONS**

- Solutions Architecture Job Simulation Forage (December 8, 2024)
  Designed scalable cloud hosting architecture to ensure high availability and performance.
- Software Engineering Job Simulation Forage (December 9, 2024)
  Developed feature proposals, game object classes, and optimized inventory systems.
- Cybersecurity Analyst Job Simulation Forage (January 30, 2025)
  Gained practical experience in IAM, platform integration, and creating custom IAM solutions.
- AWS Security Learning Plan AWS (March 9, 2025)
  Completed security fundamentals training focused on cloud-based security measures.

# **LANGUAGES**

• Hindi: Native

• English: Advanced (C1)

## **KEY ACHIEVEMENTS**

- Delivered project-based solutions within the Solutions Architecture and Software Engineering simulations.
- Gained hands-on experience in cybersecurity best practices and cloud security implementations.
